REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious the claimed specific composition set forth in the claims. After a careful search of issued patents and relevant commercial databases, no references were found that would either anticipate or make obvious applicant's claimed invention.

The prior art of record, Schultz teaches the composition for the treatment of acne, dermatitis and wrinkles comprising citronella, eucalyptus, and tagetes but it does not teach or make obvious the claimed specific herbal colorant is extracted from root, stem or leaves of the Boraginaceae plant, the specified pH of the herbal colorant, and the amount of the extracted herbal colorant, and the specific organic solvent set forth in the instant claims. Therefore, there is no motivation to formulate the specific composition set forth in the claims without the specific teaching or suggestions from the prior art. Accordingly this application is allowed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
